

# ANNA MARICE BOYOSE

## Full-Stack Development

Manila, Philippines

amboyo.dev@gmail.com | +63 9292803010

Portfolio: <https://amboyo.onrender.com>

GitHub: <https://github.com/devAMBoyo?tab=repositories>

## PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years of hands-on experience across IT systems, backend development, and full-stack web applications. Proven track record in designing, developing, and maintaining secure, scalable systems spanning frontend, backend, and database layers. Strong hands-on experience with JavaScript, Node.js, Java (Spring Boot), PHP, MySQL, and MongoDB, along with RESTful API development, authentication, and role-based access control. Experienced in system integration, application security, and performance optimization, with the ability to collaborate effectively in cross-functional, onsite, and remote environments.

## CORE COMPETENCIES

- ✓ Full Stack Web Development
- ✓ Secure Application Design
- ✓ Frontend & Backend Integration
- ✓ Database Management
- ✓ UI/UX & Responsive Design
- ✓ System Support & Optimization

## PROFESSIONAL EXPERIENCE

### Scoop Swoop LLC – Spokane, WA, USA (Remote)

Graphic Designer (Independent Contractor) | August 2025 – March 23, 2026

- Designed high-impact marketing and promotional graphics for digital campaigns, including email marketing templates and website funnel assets, all aligned with brand guidelines.
- Created visual assets for pricing pages, service features, mascots, and conversion-focused email funnels to support customer acquisition and retention goals.
- Developed and structured email templates and web funnel layouts, ensuring a seamless user journey from awareness to conversion across landing pages and automated email sequences.
- Produced clean, scalable design layouts using Canva and Adobe Creative Suite, maintaining consistency across all marketing materials and digital platforms.
- Collaborated closely with marketing and operations teams to translate campaign requirements into engaging visual concepts and high-performing funnel designs.
- Iterated designs based on stakeholder feedback, optimizing visuals and funnel flow for clarity, brand trust, and improved user engagement.
- Ensured all deliverables met quality standards, deadlines, and marketing objectives while working independently in a remote setup.

### Biosite Medical Instrument Inc. - San Juan City, Manila

Information Security Associate / Full Stack Developer | February 2024 – July 2025

- Developed and maintained full-stack web applications covering frontend, backend, and database integration.
- Implemented application-level security controls, including authentication, authorization, and role-based access.
- Built and integrated RESTful APIs to ensure secure and efficient data exchange.
- Managed MySQL databases, including query optimization, backups, and controlled access.
- Applied secure coding practices to protect internal systems handling sensitive operational data.
- Collaborated with IT, operations, and management to align system functionality with business and security requirements.

## **Ofworkers - Wilmington, Delaware, USA (Remote)**

*Web Developer (Front-End) – Remote | December 2023 – February 2024*

- Customized and maintained WordPress themes and templates aligned with brand requirements.
- Designed responsive layouts and UI components for cross-browser and mobile compatibility.
- Updated website content, landing pages, and product sections to support marketing objectives.
- Monitored website performance and SEO metrics using Google Analytics and Search Console.
- Worked closely with marketing and creative teams to deliver fast-loading, visually consistent websites.

## **Mindanao Area Police Office (MAPIO) - Davao City, Philippines**

*IT Specialist / System Administrator – Onsite | September 2018 – December 2023*

- Maintained and supported IT systems, servers, and network infrastructure to ensure reliable daily business operations.
- Provided onsite and remote technical support for hardware, software, operating systems, and network-related issues.
- Administered user accounts, access permissions, and system configurations in line with security policies and operational requirements.
- Managed databases and performed regular backups, monitoring, and basic recovery procedures to ensure data availability and integrity.
- Implemented basic cybersecurity controls, including access restrictions, antivirus management, patching, and system hardening.
- Documented IT assets, system configurations, procedures, and updates to support audits and operational continuity.
- Coordinated with third-party vendors for system upgrades, maintenance, repairs, and software licensing.
- Assisted in troubleshooting network connectivity issues, system downtime, and performance-related concerns.
- Supported business teams by ensuring IT environments were stable, secure, and aligned with operational needs.

## **Kirobin Digital Printing – Visayas Panabo City, Philippines**

*Graphic Designer – Onsite | January 2013 – September 2018*

- Designed and produced visual materials for print, branding, and digital marketing content.
- Developed layouts and graphics for social media, print advertisements, websites, and presentations.
- Collaborated with marketing and creative teams to ensure brand consistency and strong visual impact.
- Edited and enhanced photos and videos for promotional use across multiple platforms.
- Maintained design assets and templates in accordance with company branding guidelines.
- Worked closely with stakeholders to translate concepts into engaging visual outputs.
- Ensured timely delivery of design outputs and revisions based on feedback and project requirements.

## **ARC Accounts Receivable Collect – US Account (Remote)**

*Virtual Assistant (Collections Team) | 2015 – 2016*

- Managed payment collection activities using CRM systems and designated collection tools.
- Communicated with clients and internal teams via phone for payment resolution and updates.
- Coordinated with collection agents to ensure timely follow-ups and achievement of collection targets.
- Generated collection and performance reports to monitor progress and identify improvement areas.
- Coordinated healthcare appointments, follow-ups, and patient-related administrative tasks.
- Maintained accurate electronic medical records while ensuring data confidentiality and compliance.
- Verified insurance coverage and assisted patients with billing and insurance inquiries.
- Supported daily healthcare account operations to ensure efficient service delivery.
-

## SAMPLE PROJECTS

### Secure Banking Application

Java · Spring Boot · REST APIs · MongoDB · Security Controls

- Designed and developed a full-stack banking application featuring secure authentication, account dashboards, transaction processing, and balance management.
- Implemented RESTful APIs with role-based access control and secure data handling.
- Applied backend security best practices for authentication, authorization, and data integrity.

Link: <https://amboyose.onrender.com/pages/warmingup/bankingapp-warmup.html>

### Inventory Tracker API & Dashboard

Node.js · Express · MongoDB · JWT · REST APIs · Chart.js

- Built a backend API for inventory and consignment tracking with JWT-secured authentication.
- Implemented CRUD operations, role-based permissions, and real-time reporting dashboards.
- Designed REST APIs to support internal operations, analytics, and data visualization.

Link: <https://amboyose.onrender.com/pages/api-integration.html>

### Full-Stack Inventory & User Management System

HTML5 · CSS3 · JavaScript · jQuery · Bootstrap 5 · REST APIs

- Developed a full-stack inventory and user management system with role-based access control.
- Created responsive user interfaces and integrated backend APIs for live data updates.
- Focused on usability, maintainability, and secure system workflows.

Tech: Node.js · Express · MongoDB · JWT · REST APIs · JavaScript · Chart.js
